As a parent, you know that your child is capable of doing much more and you want to help them achieve success in life. With this in mind, how do you enhance your child’s drive and help them achieve their goals?

In this workshop, participants will be given insights on how you can help develop your child’s full potential and inspire them to succeed. You will learn positive and practical methods to motivate your child to study well. As a result, you will feel less stressful when asking your child to study. Most importantly, you can become a great coach to your child’s character building and dream fulfilment.
